Why Allan Block?

With the wide variety of options on the market today, Allan Block's built-in features, benefits and superior services make our products the most efficient and reliable products available.

All Allan Block products have three major things in common:

- ◆ **Hollow Cores** – this hollow-core design provides many benefits over other solid systems.
 - ◆ Superior Drainage
 - ◆ Easier Handling, Faster Installation
 - ◆ Lower Labor Costs
 - ◆ Block-to-block interlock created by the wall rock within the blocks
 - ◆ Better resistance to freeze-thaw cycles
- ◆ **Mortarless Construction** – building with an interlocking dry-stacked material provides flexible, superior performance over more rigid construction techniques. No concrete footings, mortar or grout are needed, saving both time and money.
- ◆ **Built-in Engineering** - with the built-in interlock, every Allan Block is firmly locked in place by the patented lip and notch configuration. No pins, no mortar, no fancy connectors.

Superior Service – period. We at Allan Block put a lot of time into training our people to enable them to give the best possible service. Whether you are working with a dedicated AB Dealer, an AB Certified Contractor, a local experienced Engineer or one of the many trained Allan Block Representatives out in your market, you can feel confident that they are ready to provide you with the "Always Better" AB experience.

Escape Outdoors

A scenic view of a lake with a curved stone retaining wall in the foreground and mountains in the background. The wall is made of large, rectangular, light-colored stone blocks. The lake is calm, and a small boat is visible in the distance. The mountains are covered in green vegetation. The sky is blue with a few clouds.

When nothing less than a dramatic statement will do, the oversized Canyon Collection, featuring a natural bluestone texture, is the perfect solution.

Artistic Designs

A photograph of a curved stone paver walkway in a garden. The walkway is made of grey and tan rectangular pavers arranged in a circular pattern at the bottom. It curves through a landscape with green grass, trees, and shrubs. The path is bordered by dark brown mulch and small white rocks. The title "Circle Kits" is overlaid in a white script font on a dark green banner at the top.

Circle Kits

Unique Accents with Sophistication.

Further enhance your outdoor living areas with a beautiful circle, semi-circle, fan or spiraling design. Our inspiring Circle Design Kits are available in The Trail Collection of colors.

Truly Unique Style

Bull Nose Pavers

Available in The River Collection, the Bullnose Pavers are the perfect accent for stair treads, pool coping or bordering an elevated patio.

Curb Stone

Curb Stone has the aesthetic appeal and durability of a natural granite block. Allowing for beautiful curbs and edging without the environmental impact of mining natural stone.

Gras Stone Paver

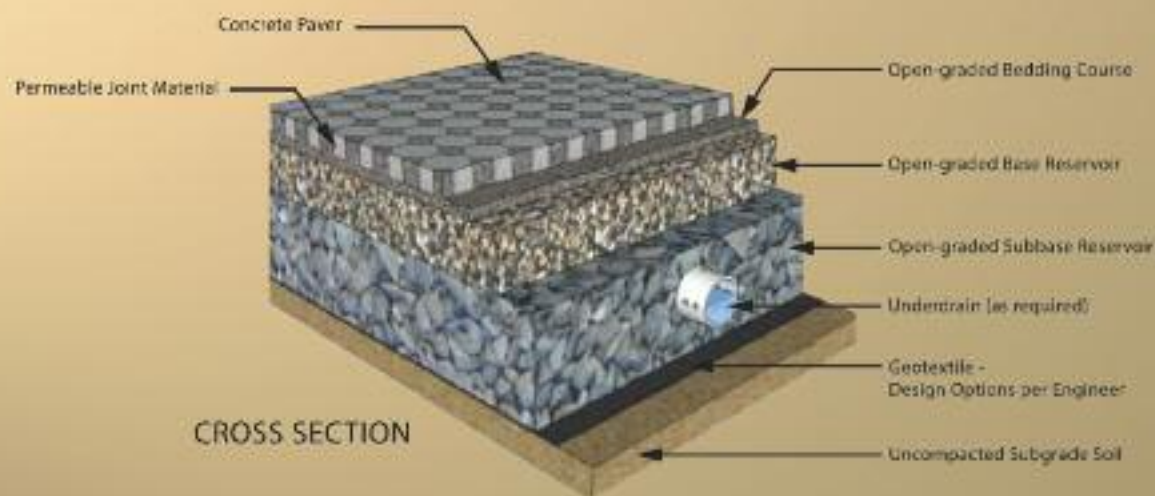

Create some solid ground with
our concrete grid pavement system,
perfect for so many problem areas.

Gras Stone Pavers are available in Natural and custom colors.

H₂O Permeable Pavers

Combine beauty and function with our enhanced H₂O paver units. When moisture is a problem, H₂O is the solution.

H₂O Permeable Pavers may qualify your project for LEED® credits.
