Student Right-to-Know Completion (Graduation) and Transfer-out Rates Report

Pursuant to the federal Student Right-to-Know Act, on an annual basis, Metro Beauty Academy determines and makes available an overall graduation rate of certificate or degree-seeking, first-time, full-time, undergraduate students.

The Student Right-to-Know graduation rate is based on a "cohort study," meaning that a group or "cohort" of students is identified and then monitored over a period of time. The current rates, set out below, are based on the group of students who enrolled for the first-time, full time students, between September 1, 2015 and August 31, 2016. The rate represents the number of those students who earned their diploma within 150% of the normal time required to complete their program. The rate does not include students who left school to serve in the armed forces, on official church missions, or in the foreign service of the federal government. Students who died or were totally and permanently disabled are also excluded.

It's important to note that the Student Right-to-Know graduation rate is calculated at the school level. In other words, there is one rate for the entire school, not a rate for each specific program. Certain institutions also are required to calculate and distribute graduation or completion rates for students receiving athletically related student aid, as well as transfer-out rates. These requirements, however, are not applicable to Metro Beauty Academy.

Graduation Rates Aggregated Graduation Rates for Metro Beauty Academy:

Data are collected on the number of students entering the institution as full-time, first-time, degree/certificate-seeking undergraduate students in a particular year (cohort); the number completing their program within 150% of normal time to completion; and the resulting percentage is calculated.

Academic Year: 2015

86%

Note on percentages: Rates over 100% reflect the fact that a first-year class has had new students enter in subsequent years and graduate with that class.

Transfer-Out Rate for Metro Beauty Academy:

Transfer-Out Rate means total number of students who are known to have transferred out of the reporting institution within 150% of normal time to completion divided by the adjusted cohort. A transfer-out student is a student that leaves a reporting institution and enrolls at another institution

Academic Year: 2015

0%

Rev: 5/2019

Note on Disaggregated Rates: Metro Beauty Academy does not disclose disaggregated rates (rates separated according to gender, race, or recipients of federal aid) due to small cohort size. This is in accordance with the text on p. A-23 of the Report of the National Postsecondary Education Cooperative, *Information Required to Be Disclosed Under the Higher Education Act of 1965: Suggestions for Dissemination:* "Disaggregated rates are to be disclosed only if the number of students in each group is sufficient to yield statistically reliable information and not reveal personally identifiable information about an individual student."

	Cohort	Completed in 150% of	Rate
		normal time	
Pell Grant Recipients	18	15	83%
Recipients of subsidized Stafford Loan but not a Pell Grant	9	8	88%
Students who received neither Pell Grant nor subsidized Stafford Loan	8	7	88%
Grand Total	35	30	86%

The Student-Right-to-Know graduation rate for our school is based on data reported by the school in connection with the National Center for Educational Statistics (NCES) Integrated Postsecondary Education Data System (IPEDS) 2017-2018 Graduation Rate Survey. The federal retention rate is based on data reported by the school in connection with the NCES, IPEDS 2017-2018 Enrollment Survey.
